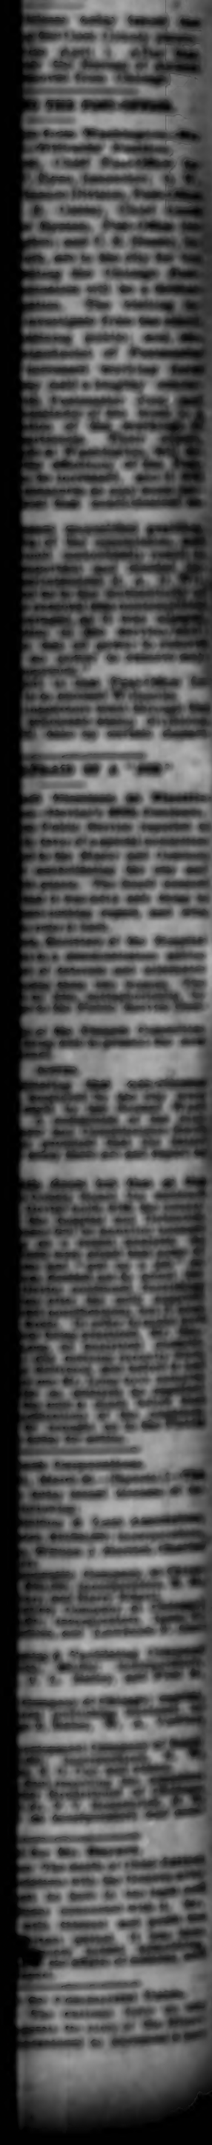
FINANCES OF

BANKS OF ENGLAND.



THE cleanness of plate-glass windows is impaired by washing them with soap containing resin, which always leaves a thin, semi-transparent coating over the surface. Ivory Soap contains no resin, and if used with tepid water, a sponge to apply the soap and water with, and a chamois to rub the window-pane dry, your windows will prove the truth of the saying: "Clear glass is to a house what beautiful eyes are to a woman."

A WORD OF WARNING.

There are many white soaps said represented to be "just as good as the 'Ivory'," but ARE NOT, but few of cosmetic, but the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and look upon getting it.

FOR SALE!

HIGHLY IMPROVED

Orange Plantation

IN THE FAMED

LAKE REGION

OF SOUTHERN

FLORIDA.

"DRAKE POINT PARK," one of the most desirable and admirably located Orange Plantations in the South, is now offered for sale TO CLOSE AN ESTATE. It is situated in Lake County (formerly Sumter), Florida, on the shore of the beautiful Lake Astatula, and comprises about 150 acres of Hammock Land, most of which is in a high state of cultivation with Orange Groves of various ages in full and successful bearing. The owner has bestowed years of labor in the improvement of this magnificent property, and to its unique location added from the soil all that the choicest varieties of the orange bear.

Owing to the altitude of the Park it is not subject to the blight of frost, and except with slight injury from the memorable one of January, 1886. The best demonstration of its desirability for the cultivation of oranges for the Northern Markets, which in many quality yields from 8,000 to 8,000 per acre annually.

The improvements are first-class in every particular, and the surroundings contribute to the comfort. Lake Harris, or Astatula, stirring miles in length, with an average width of four miles, forms the basis of the elevated plateau upon which stands the residences, on its south and east, and gently on the west.

It is romantically interspersed with inhabited islands, and abounds in the finer varieties of fish, while numerous steamers, yachts, and sailing craft plow its waters. Railroads border it on three sides, and in lovely shores present here and there towns, villages, and cities.

The limited space of an advertisement forbids an extensive description of this magnificent property, which must be inspected to insure proper appreciation.

Those desiring to purchase will find it easy of access, and will be afforded every facility for investigation.
